Network Transformation with SDN

[Rich Lopez](#) [2]

Tue, 16 Aug 2016 - 03:30pm AEST

Rich Lopez

Rich Lopez is Global Head and VP of Solution Architecture for the Blue Planet Business Division of Ciena. He has an R&D background and was previously PLM for the Blue Planet portfolio at Cyan prior to acquisition by Ciena. He thus has good breadth of knowledge of the R&D line stemming from its origins and up to and including our most recent and innovative projects. Rich had an extensive industry career with executive and senior engineering positions held across organisations such as Cyan, Tellabs, Mahi Networks and Applied Digital Access.
